EAST CENTRAL R'Y COMPANY.

New Company Has Been Organized to Construct Road From Ormond to Sanford Via Daytona.

The East Central Railway Company is the name of a new corporation that has organized with a capital of $1,000,000, to construct a railroad from Ormond to Daytona, thence in a westerly direction to DeLand, south to Sanford and Orlando, in Orange County.

The present officers of the company are as follows: President, E. L. Potter, Seabreeze; Vice President, J. Clyde Power, Indianapolis; General Manager, S. H. Gove, Daytona; Secretary, J. Hall Bramsey, DeLand; Treasurer, J. B. Crocker, Seabreeze; Directors, E. L. Potter, J. B. Crocker, S. H. Gove, J. Hall Bramsey.

The first regular meeting of the stockholders will be held April 5th, 1906, at DeLand, for the purpose of accepting the charter and transacting other business.

Good Ball Game.

The game of baseball Thursday afternoon between the Ormond and the Royal Poinciana teams, at Palm Beach, was a splendid game of ball. The big green pavilion was filled with spectators, all of whom witnessed as snappy and fast a game of ball as has been played on the Palm Beach diamond.

The score was 5 to 8 in favor of the Royal Poincians, and as the Ormond team was first to the bat and did not change the score during the first half of the last inning, it was not necessary to play the last half of that inning.

P. O. Davis, for many years connected with The Cleveland Press, has purchased the entire stock of the Dean Publishing Company at Palm Beach, publishers of the Daily and Weekly News. The new owner will assume personal charge.

Married.

Information has been received in the city of the marriage of Miss Edith Sayler to Dr. Benjamin T. Lehman, on Wednesday, February 21st, at Arden, O. The bride has quite a number of friends in Daytona. The couple are expected to make a trip to the East Coast.

Messrs. Young & Fay, of Boston, came up from Daytona, Monday, for a few days' hunting. They succeeded in getting, along with the quail and other small game, one of the largest wild turkeys killed here in some time, a gobbler and over 20 pounds. The skin was sent home by Mr. Fay to be mounted. The game dinner the gentlemen gave to a few friends at the Byrlyn, Thursday night, was mighty good proof of the marksmanship of the gentlemen from Massachusetts.—San Mateo Item.

BOLD ROBBERY WAS EFFECTED.

Residence of H. J. Kaiser Entered And Jewelry Stolen.—Intruder Was Chased From the House.

The residence of Henry J. Kaiser was entered early this morning by a bold sneak thief, who carried away several pieces of valuable jewelry. The thief made considerable noise in one of the rooms occupied by a lady member of the house, who awoke and yelled for assistance. Mr. Kaiser rushed to the room, but the bold intruder made a desperate and successful dash out of the house.

Several pieces of jewelry were found to be missing, and outside of the house a silver paper knife was found on the ground.

It is not known whether the thief is white or black, and there is no clue to the robbery.

The authorities have the matter in hand, and are working on the case.

COLD WEATHER DID NO DAMAGE.

Cabbage and Celery Shipments are Heavy Now.—An Estimate of the Tomato and Pineapple Crops.

The cold snap of the past few days has done no damage as far as has been learned, to the vegetable crops in Florida, says the Jacksonville Times-Union.

Railroad men report that cabbages and celery are moving rapidly from the vicinity of Ybor City, Sanford and Manatee River, in carload lots.

An estimate of the tomato, potato and pineapple crops in the State, as given by one well informed, is as follows:

The tomato crop this season is about 1,600 acres and will yield about 260 crates to the acre.

The potato crop at Hastings will yield about 165,000 barrels.

The pineapple crop will yield about 385,000 crates.

The Florida peach crop, if the weather remains favorable, will commence to move the latter part of this month and from all accounts will be heavy.

BEGGAR PRINCE OPERA COMPANY

Large House Greeted Performance Last Night.—Another Show To-Night.—Seabreeze Monday.

As the audience passed from the Opera house last night many pleasant comments were heard regarding the performance of the "Beggar Prince." It is a play which calls for real acting players and the excellent company was not found wanting.

The play presented under the name above given is recognized as the old and ever delightful "Mascot," but under its new name, "get there just the same." Miss Morris, as "Bettina," is inimitable, possessing a most pleasing voice and being about the "cutest ever." Supporting her is an old favorite, Harry Lavelle, whose magnificent lyric tenor has been heard with pleasure in all parts of the Union. As for the commedians, they are the best seen in Daytona in some time. R. Stanley portrays the "Beggar Prince" in a most laughable manner, and Fred Gadding is in danger of being sued for breaking the sides of his audiences in his portrayal of "Rocco, the Grand Chamberlain." Marie Dickey as "Princess Flamette" was one of the stars and evoked the admiration of the audience by her beauty, acting and singing.

Wm. Y. Arthur was at home in the role of "Prince Frederic" and won the audience independent of his peerless voice.

The pages and chorus displayed exceptional ability and the large crowd which greeted "The Beggar Prince" were well pleased.

The company will present the opera "Said Pasha" this evening, and on Monday evening, at Seabreeze, will present "Girofle-Girofla."

ANXIOUS TO OFFER A PRIZE.

Halifax River Yacht Club Wants a Long Distance Race From Palm Beach to The Club House.

The Halifax River Yacht Club, located at Daytona, Fla., is anxious to offer a cup for a long distance race from Palm Beach to their club station, a distance of nearly 300 miles, says Morgan's Motoring Weekly.

The route lies wholly inland, and the Halifax Club would gladly furnish local pilots to operators not acquainted with the waters. The proposed journey would take the boats through the Lake Worth Creek to Jupiter Narrows and through Hobe Sound by Gilbert's Bar into the Indian River. From there the route leads through Haulover Canal to Mosquito Lagoon, and thence northward up the Halifax River to Daytona. There is also talk of next year arranging a championship contest in which the best boats of the South will be ready to meet those of the South.

VANDERBILT CAR CHANGES.

Trouble With Clutch Has Been Remedied and Monster Car in working Order. Will Race.

The trouble with the clutch, which kept the Vanderbilt car out of the events at Ormond-Daytona Beach, has been remedied, and the monster racer is now in working trim.

Another speed has been added, making four now instead of three. In a trial test under unfavorable conditions, Sartori pushed the car for more than a mile at a rate close to 120 miles an hour, or very near to the time made by Victor Demogeot in his big Darracq.

A new [illegible] apparatus has been added to the car, taking away all danger of overheating, and in the recent tests made by Sartori, the car has come up to all expectations, both those which he has always held and those of the builder, Dr. [illegible] Richards. Alfred Gwynne Vanderbilt, the owner of the car, according to "Senator" Morgan, is willing for Sartori to bring the racer to Atlantic Beach, and Stanley is willing to enter his steamer, with Mariott driving, against the new car.

CITY SYSTEM OF BOOKKEEPING.

Clerk Wilkinson Says That the Books that Have Been Installed are Giving Satisfaction. Not all in Use.

"A portion of the new city books have been installed and today are giving entire satisfaction," this is the report of City Clerk J. W. Wilkinson made to a representative of the Daily News on Friday afternoon.

The new system is much more complicated than the old one that has been doing service for some years past, but with the new arrangement it will give the city a system of accounts that will be entirely satisfactory, after they are all installed and in working order.

Thos. G. Hutchinson, the Jacksonville accountant, will make a visit to the city about April 1st when the new budget takes effect, and will install the remaining books.

Tax Collector H. F. Douglas is not pleased with the new system in the least, and he says that the number and kind of books are not suited to the requirements of the city. Mr. Douglas also says that it will require the services of a bookkeeper to keep them, and they are intended for a city of about 25,000 to 50,000 inhabitants.

The cost of the books and the installation will amount to about $500.

J. F. Hathaway, as an angler, Friday proved himself to be one of the best. He caught a string of sheepshead that was so long that it attracted unusual attention when being carried down the street.

The ladies of the Methodist church are contemplating holding a bazaar within the next ten days or two weeks.

It is currently reported that ex-Marshall Zuber has been engaged to work in behalf of the Law and Order League, and that he has been placed on the salary list at $100 per year. The former marshal is back from a trip to the county capital, and it is stated that there is some significance attached to his journey.

Misses Alice and Mabel Birkbeck, two popular young Brooklyn, N. Y., ladies who have been spending the winter at Palm Beach, left here Tuesday after a pleasant season, for visits at Daytona, St. Augustine and Atlanta, on their way North. They were delighted with Palm Beach, after a second season here.—Palm Beach News.

The infant child of Mr. and Mrs. D. G. McBride died Friday at DeLand. The remains will be brought to Daytona this afternoon and the interment will take place at Pinewood Cemetery. Mr. and Mrs. McBride have the sympathy of the community. They were unfortunate in losing another child at Kingston, several weeks ago.

A Poem for Today

BREAK, BREAK, BREAK!

By Alfred Tennyson

BREAK, break, break,
On thy cold gray stones, O sea!
And I would that my tongue could utter
The thoughts that arise in me.

Oh, well for the fisherman's boy
That he shouts with his sister at play!
Oh, well for the sailor lad
That he sings in his boat on the bay!

And the stately ships go on
To their haven under the hill;
But, oh, for the touch of a vanished hand
And the sound of a voice that is still!

Break, break, break,
At the foot of thy crags, O sea!
But the tender grace of a day that is dead
Will never come back to me.

FAIR WOMEN

By Thomas Campion

IF Love loves truth, then women do not love,
Their passions all are but dissembled shows;
Now kind and free of favor if they prove,
Their kindness straight a tempest overthrows.
Then as a seaman the poor lover fares;
The storm drowns him ere he can drown his cares.

But why accuse I women that deceive?
Blame then the foxes for their subtle wile;
They first from Nature did their craft receive;
It is a woman's nature to beguile.
Yet some, I grant, in loving steadfast grow;
But such by use are made, not Nature, so.

Oh, why had Nature power at once to frame
Deceit and Beauty, traitors both to Love?
Oh, would Deceit had died when Beauty came
With her divineness every heart to move!
Yet do we rather wish, what e'er befall,
To have fair women false than none at all.

A Patient Soul.

Alexander Innes Shand in his "A Medley of Memories" writes of an old Scotchman whom he knew in his boyhood. "He used to drive cattle in a flowing, flowered dressing gown, which had been passed on to him, and he only shaved his gray beard at long intervals. One of my earliest recollections is seeing him biting off the tails of a litter of terrier puppies in the courtyard. He was a philosopher in his own way, and with the free run of the servants' hall and butler's pantry he took life easily.

"He never complained. Once when the landlord paid a morning visit that personage splashed from the drainage outside the door into a puddle within, where some ducklings were disporting themselves, and the wet was dripping over him from the blackened rafters.

"'Why, John,' was the exclamation, 'you are in a terrible state here! We must have your roof overhauled.' 'Aye, it's lettin' in some water,' was the reply, 'but it's gey thick, and they are but little drops, and I do weel eneuch in the bed under my auld umbrella.'"

Doesn't Like to Move.

A most curious and sluggish creature is the tautawa, a nine inch lizard whose home is in New Zealand. This little imitation saurian has the reputation of being the laziest creature ever created. He is usually found clinging to rocks or logs along the shores of rivers and lakes and has been known to remain in one position perfectly motionless for many months. How the creature manages to exist is a mystery.

Arrive at 9:00 O'clock This Morning on a Special Train.—All Seemed Pleased With Daytona.

A handsome train composed of ten cars rolled into the station this morning shortly after nine o'clock with 150 members of the Cleveland Grays, one of the crack military organizations of the country.

The visiting military men were met at the station by vehicles furnished by Geo. A. Foye and Randall and Pallerier. They were then taken for a drive about the city and to the beach. Quite a number have friends in Daytona, and they were cordially received and accorded a good time.

The train was taken down the road a few miles where it was side-tracked. It returned to the city shortly after noon.

The Cleveland party will leave here this afternoon for St. Augustine and Jacksonville.

It is to be regretted that the weather is inclement today, but, nevertheless, the visitors all had a good time, and they seemed thoroughly pleased.

LOCAL EVENTS.

A Patient Scot.

Alexander Innes Shand in his "A Medley of Memories" writes of an old Scotchman whom he knew in his boyhood. "He used to drive cattle in a flowing, flowered dressing gown, which had been passed on to him, and he only shaved his gray beard at long intervals. One of my earliest recollections is seeing him biting off the tails of a litter of terrier puppies in the courtyard. He was a philosopher in his own way, and with the free run of the servants' hall and butler's pantry he took life easily.

"He never complained. Once when the landlord paid a morning visit that personage splashed from the drainage outside the door into a puddle within, where some ducklings were disporting themselves, and the wet was dripping over him from the blackened rafters.

"'Why, John,' was the exclamation, 'you are in a terrible state here! We must have your roof overhauled.' 'Aye, it's lettin' in some water,' was the reply, 'but it's gey thick, and they are but little drops, and I do weel eneuch in the bed under my auld umbrella.'"

Doesn't Like to Move.

A most curious and sluggish creature is the tautawa, a nine inch lizard whose home is in New Zealand. This little imitation saurian has the reputation of being the laziest creature ever created. He is usually found clinging to rocks or logs along the shores of rivers and lakes and has been known to remain in one position perfectly motionless for many months. How the creature manages to exist is a mystery.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 200 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bared for 500 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbtide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year while the strong and expert swimmer can venture out farther to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

of Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing and the varieties that abound in the ocean are present in the river.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect a comfort as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bared for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebbtide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature

at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

IF I HAD ONLY KNOWN

So said a woman a few days ago after she had paid $3.00 for a pair of shoes at a certain store and then accompanied a friend here who bought a pair for $2.50.

If I had only known!

Of course this woman will know better hereafter and will come to our store for her shoes.

How is it with you Madam? Have you been here and made a shoe saving besides getting excellent shoes.
